

KAREN GIORGIO BIOGRAPHY

A pianist, a vocalist, a cabaret singer – Karen Giorgio is as at home behind a piano in an intimate cabaret lounge as she is on stage belting out a standard or show tune with a jazzy ensemble.

Karen currently lives in San Diego, California where, in between concerts and gigs, she mentors future musical stars and enjoys her canine “children” and her garden.

Born and raised in New York, she began her musical career at age seven learning piano and training as an opera singer. By her tenth birthday, the lure of Broadway brought her into the limelight with the lead role as Francie in *A Tree Grows In Brooklyn* and summer stock and off-Broadway productions.

Moving to California, she starred as Julie in *Carousel* at Hollywood High School and soloed with the Hollywood Symphony Orchestra at the Hollywood Bowl.

After raising two children she embarked on a five-year tour. During this tour, she performed on the finest cruise ships and hotels throughout the world delighting audiences in Scandinavia, Holland, Japan, Mariana Islands, the Caribbean, Bermuda, Canada, New York, Los Angeles and San Diego.

Karen, as an accomplished cabaret entertainer demonstrates her artful ability to sell a song with her CD, “Expressions” which she produced with Joe Fos at the piano and Stan Booth on Bass. Joe will be accompanying Karen in her forthcoming concert, “Cabaret My Way” along with Bill Andrews on bass and Ric Henry as guest vocalist.

In between concerts and recording sessions, Karen performs in San Diego at the Westgate Hotel and the Park Manor Suites Hotel. She maintains her schedule on her web site: www.KarenGiorgio.com.

Karen’s main goal and “bandwagon” is to help keep live music alive in this era of electronic synthesis. Ask Karen what is a cabaret artist and she will likely respond: “A saloon singer, a live entertainer in an intimate setting, a storyteller who happens to speak in melody. The cabaret artist opens up her soul to audiences as she interprets a repertory built around the standards of jazz and show music.” Now that’s live music alive.
